

Department Overview

Department of Civil Engineering

Civil Engineering is a broad field of engineering that deals with planning, design, construction, and maintenance of different structures like buildings, roads, bridges, canals, dams, water supply and treatment systems etc. The Department of Civil Engineering was started in the year 2001 with an annual intake of 60 undergraduate students which was subsequently raised to the present annual intake of 120 students. It also offers three PG Courses in Structural Engineering, Geo-Technical Engineering and Highway Engineering. In addition, the department is recognized as a research center by JNTUH. UG Civil Engineering program is conferred with Six years of accreditation under Tier-I consecutively for the second time in 2023 by the National Board of Accreditation (NBA), India. PG Structural Engineering program is accredited for 3 years by NBA in the year 2021. The department provides extensive lab facilities in the areas of Structural Engineering, Transportation Engineering, Geotechnical Engineering, Environmental Engineering, Hydraulics, Remote Sensing, Geospatial Information System and Surveying. The department also provides separate computer laboratories for UG and PG students. It also has a library with varied collection of books and several facilities.
