

VALLURUPALLI NAGESWARA RAO VIGNANA JYOTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

TRAINING & PLACEMENTS

Career Counseling & Support Services

Vision

To empower students to make lifelong, responsible and meaningful choices in a global and dynamic world.

Mission

Committed to develop the best talent pool on key competencies acknowledged by the industry through structured training programs.

TRAINING & PLACEMENTS

From the desk of the Principal

It brings me great joy to warmly welcome you to VNR Vignana Jyothi, where our core mission is societal change through dynamic technical education. I applaud the Vignana Jyothi Trust for their dedication in shaping this institution into a hub for fostering ethically sound and skilled technologists. Our Career Counseling and Support Services empower students to make informed choices, aiding their journey into adept professionals and global citizens.

Prof. C.D. Naidu
Principal

At VNR VJiet, we take pride in our exceptional infrastructure, innovative teaching approaches, and holistic student growth. These, alongside strategic initiatives, establish VNR VJiet as a premier technical education institution in Telangana. I am glad to introduce our talented UG (B.Tech) and PG (M.Tech) students with diverse academic credentials and training in specific skills like AI, DATA SCIENCES, CYBER SECURITY, DEVOPS, FULL STACK, SALESFORCE, SERVICENOW, VLSI etc. that will give you the advantage of picking the industry-ready graduates as you solicit young intellectuals to join your esteemed organization. I am confident our graduates will exceed expectations and contribute significantly to their organizations. With this spirit, I extend warm greetings and best wishes to all.

From the desk of Head – Training & Placements

We cordially extend an invitation to your esteemed organization to participate in our Campus Placement program for recruiting the 2025 Batch Engineering students. We provide career opportunities across various sectors, including Core, Hitech, Indian & Global companies.

Committed to nurturing top talent, we offer personalized training programs and industry-certified courses. Through tailored training and feedback, we mold students into adept professionals ready to tackle diverse challenges.

The remarkable successes of our alumni underscore our commitment to excellence. Despite shifting hiring landscapes, our comprehensive approach ensures our students remain competitive in the job market.

Dr. D. Pardhasaradhi
Head T&P

Introduction

Integrated Mentoring, Training & Placements is an innovative and novel process introduced by the Management of VNR VJiet. The aim is, initiate the students to the academic environment, guide, motivate and train all students from the very beginning to enhance their growth and help them achieve their goals. This program enables each student to become pro-active in defining their own goals and bring out inherent talent.

VNR VJiet also makes every effort explicitly to provide employment opportunities to the students in Core, High Tech, Indian & Global companies. Our Experts facilitate the students to explore on career options and impart knowledge on key competencies required to fulfill individual aspirations. With this objective a policy on 'Training & Placement' is evolved.

VNR VJiet adopts the policy of inclusiveness of all categories of students and the students of different performance levels in providing the opportunities keeping intact the unbiased social justice to all the students.

Received National Employability Award consecutively for 4 years.

TRAINING & PLACEMENTS

Training Objectives

- Design & organize training programs to the students on strategically relevant competencies along with academics to make them industry ready.
- Provide necessary behavioral inputs through structured program so that our students can take-up & overcome any challenges at work & personal front.
- Organize periodical review on effectiveness on the training programs, establish a process for continuous learning and conduct periodical assessments as per Industry recommended standards.
- Encourage Industry certifications and connect with Industry to establish Industry designed elective courses.
- Organize industries visits, expert sessions to update the knowledge on industrial recent trends.

Placement Objectives

- Visualize and get requirements, connect to the recruiting companies through placement portal, visits, build and maintain good relations.
- Integrate and interface with the industry continuously by organizing, coordinating frequent guest lectures, industry tours, and impart training and projects of industrial relevance to the students.
- Provide expert counseling to every aspiring student to define their career interests.
- Setup and strengthen the network with Alumni.
- Organize and coordinate campus placement program to fulfill the commitment of every aspirant.
- Explore more Industry Internship opportunities for aspiring students across all streams of Engineering.

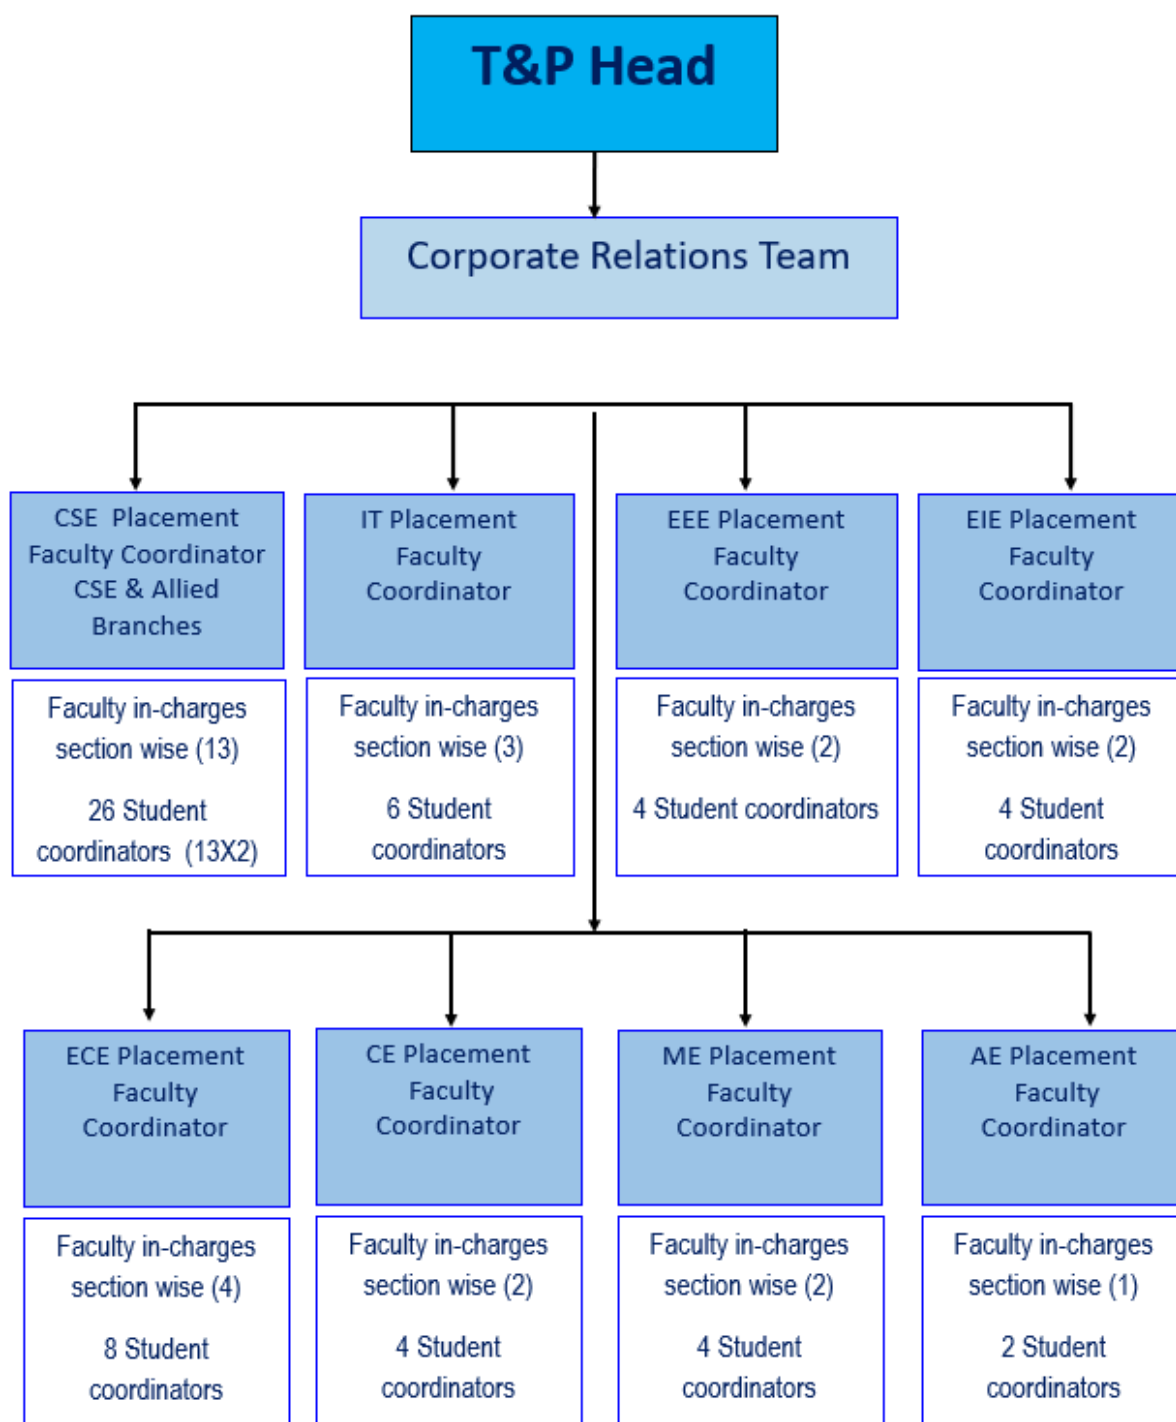

TRAINING & PLACEMENTS

T&P Organization

- The Training & Placement Cell is headed by experienced fulltime expert / Professor assisted by officers (Corporate Relations) and Training Officer.
- A placement committee comprises of representatives from faculty and students, functions with a responsibility to organize Company visits, student database, prepare placement brochure, communicate the companies, support placement activities and participate in campus placements etc.
- Student representatives along with faculty members coordinate the activities of 'High Intensity Training program' and other training programs that are structured throughout 4 yrs.
- **TERM:** The term usually is one year since the student representatives are from final year. In case a member not showing interest or not complying with the activities, a new member of the same branch is nominated with the concurrence from the Department Head.
- **Periodicity of the Meeting:** The training & placement committee will meet twice in semester – On emergency whenever a placement activity is scheduled, the committee will meet with either particular branch or with all the branch coordinators as per placement requirements. Minutes of the meeting will be shared either through mail or through hard copy.

T&P Committee

TRAINING & PLACEMENTS

Norms for students to attend the Campus Placement drives

- Student to be eligible for placement must have attended at least 75% of the Training classes.
- Student has to register him/herself at the beginning of the third year second semester for placement in the given format and by paying a nominal fees as fixed by the institute, indicating the dream company choice.
- Submit the latest CV online with a recent digital photograph and also submit five pass port size photographs (Hard copies).
- Submit a copy each of the relevant certificates as given in the Registration format both soft and hard copies.
- Students are advised to follow the norms displayed from time to time to maintain the dress code etc. while appearing for placement selection.

General

- Training Cell provides equal opportunity of training to all the aspirant students.
- Each student will be given a maximum of five attempts in campus placement drives.
- Student, once selected will not be allowed further in any placement drive until and unless all the students of that class got placement. However, he/she will be allowed for his/her Dream Company.
- As soon as the student gets the dream job, he/she would not be considered for any other company.
- Student who fails to attend the placement interview, whether on or off Campus , subsequent to his/her consent for attending the same will be removed from the eligible placement list.

Thrust Areas of the Finishing School - Career Vision Approach

VNR VJET Finishing School is a unique endeavor with the vision of enhancing employment amongst fresh engineering graduates. Imparting business communication, technical, and behavioral skills is essential for sustained performance and career success, meeting the ever-growing global industry demand for suitable talent at the entry level.

In order to address the gap between campus to corporate, Finishing School offers a range of student development programs that are aimed at enhancing the employability skills of students and young graduates, thus preparing them to face the challenges and demands of the real world.

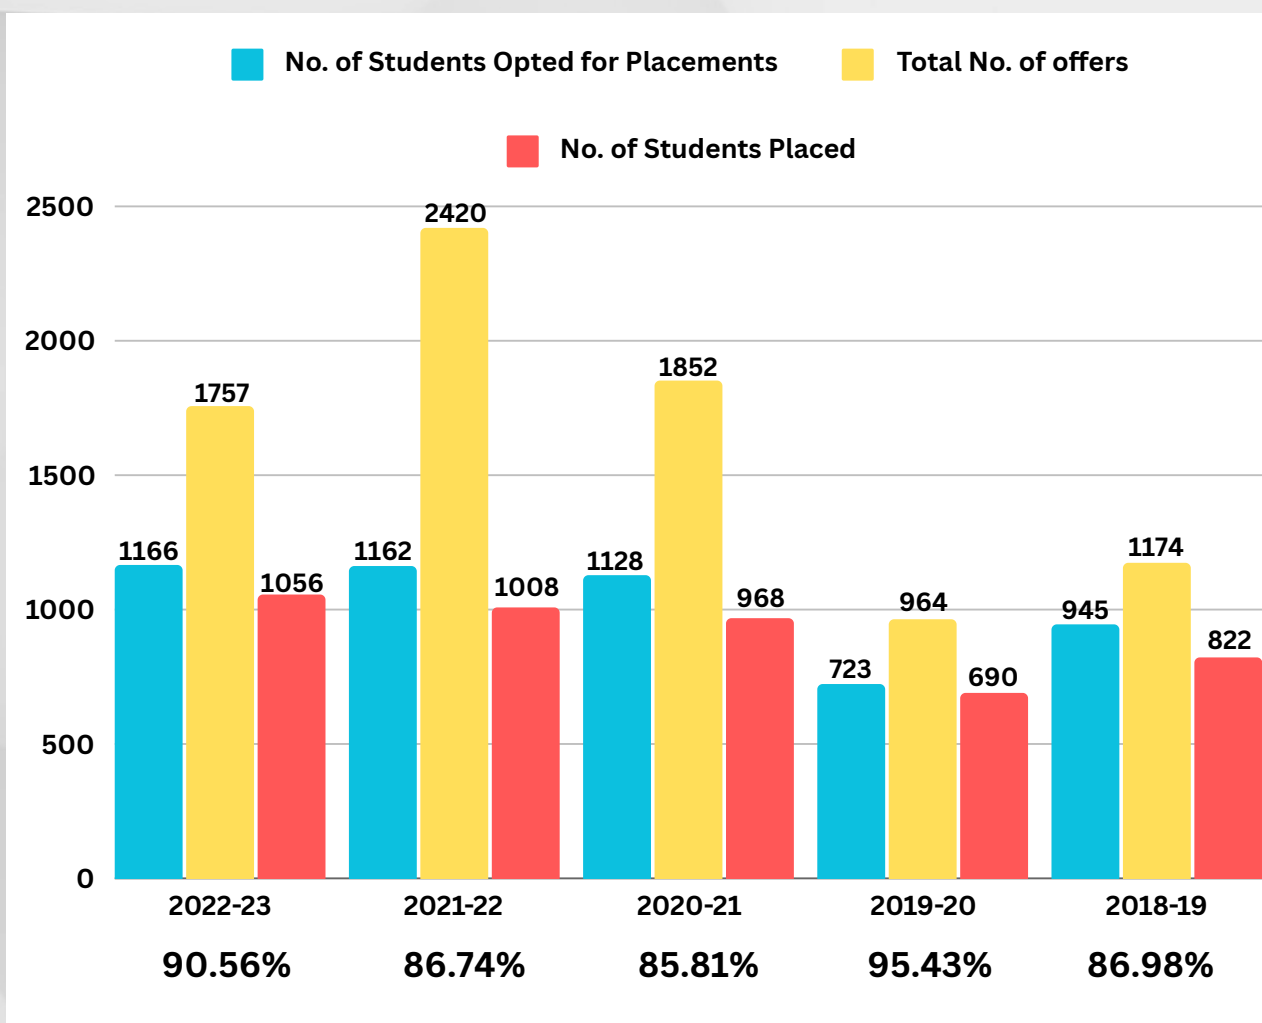

The concept and design of the Finishing School is to support the student journey from Campus to the Corporate with Career Vision Approach.

Hands-on session on Agile Project Delivery by DBS India

Venue: A113 Computer Science Lab

Date: 20/8/2022

Speakers: SITARAM TADEPALLI, SHIKHA SRIVASTAVA, ROHINI JANAPALA

Attendees: 43 IV year students across CSE, IT

We were very fortunate to host the DBS team at VNR VJiet, for the campus connect program. They delivered a preplacement session on "Agile Product Delivery" for the few selected fourth year students as a part of the campus connect program.

Delivery	Agile	Agile
DBS Tech India	DBS Tech India	DBS Tech India

The session started with an introduction to the company. Thereafter insights were given as to why agile software development is required in today's world. A comparison was given of how agile software development differs from the traditional software development process.

The team highlighted that coding is just one part but how it is done is important. Hence, agile methodology is adopted to develop software that gives the principled way of developing the software's to avoid wastages such as inventory, defects, motion, transportation, over processing, defects, and waiting.

The key takeaways of the session: AGILE principles, simulation of AGILE, concepts in AGILE, how to create GIT repository and how to create sprints. The team conducted a group activity and best teams were given prizes.

DBS has great plans for recruiting our students.
